

SPECIAL EDUCATIONAL NEEDS

The school has its own Special Educational Needs Coordinator (SENCO). The school collaborates with various agencies to ensure a good education for all pupils. Our most important partner is PPT Utland (the educational/psychological service for Norwegian independent Schools abroad). PPT abroad can, on the same basis as other PP-services in Norway, assess pupils' needs for special needs education. PPT Utland visits schools for assessments twice a year, but there is a close cooperation outside of the school visits as well. All pupils referred to PPT Utland or receiving statement for special educational needs from Norway must have a Norwegian Passport.

OTHER SERVICES

We cooperate with local authorities and services when necessary and/or if the child is not entitled to support from PPT Utland.
